

TALScouts Virtual Book Reading Marathon

On the occasion of international day of education on the 24th January, TALScouts conducted a 40 hour long virtual reading marathon.

For a virtual gathering of youth leaders that share stories for the visually impaired students, so that they all can step together into a better world for tomorrow. 27 students from Vishnu School have taken part (participated). Students narrated stories in the languages Telugu & English.

These stories narrated by students will be converted into resources for an e-library that will be accessible to all. The audio files will be focusing especially on providing learning resources for the visually impaired.

The 2022 virtual Reading Marathon theme is pivoted upon the United Nations sustainable development goal of quality education.

This has been released in Tal Radio & Youtube.
